

# **Functions** (Assignment Solutions)

#### Question 1:

```
int reverse(int n) {
bool isPalindrome(int num) {
```

#### Question 2:

```
int digSum(int n) {
```

### **Question 3**:

```
int abSquare(int a, int b) {
```

## Question 4:

```
int largest(int a, int b, int c) {
    if(a >= b && a >= c) {
        return a;
    } else if(b >= c) {
        return b;
    } else {
        return c;
    }
}
```

# Question 5:

```
char getNextChar(char ch) {
    if(ch == 'z') {
        return 'a';
    } else {
        return ch + 1;
    }
}
```
